

HAWWA RAFIYA

hawwarafiya@gmail.com | linkedin.com/in/hawfiya | github.com/hawwarafiya | hawwarafiya.github.io/hawwa-rafiya-portfolio | Kasaragod, Kerala

CAREER OBJECTIVE

Computer Science Engineering student (3rd year, CGPA 7.42) with hands-on experience in Python, Flask, and frontend development. Passionate about AI/ML and software development, with proven initiative through open-source contributions, hackathon participation, and multiple AI certifications. Seeking a software development or AI/ML internship to apply and grow technical skills.

EDUCATION

B.Tech in Computer Science & Engineering – LBS College of Engineering, Kasaragod (KTU) 2023 – 2027 | CGPA: 7.42

TECHNICAL SKILLS

Languages:	Python, Java, C
Web & Frameworks:	HTML, CSS, JavaScript, React.js, Flask, Tailwind CSS, Redux Toolkit (RTK Query), Vite
Databases:	SQLite, MySQL
Tools:	Git, GitHub, VS Code, GitHub Pages
AI / ML:	Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, LLMs, Prompt Engineering
Core CS:	Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Agile/Scrum

PROJECTS

College AI Assistant Chatbot | Python · Flask · HTML/CSS/JS · SQLite · Jinja2

github.com/Fathimariza/college-ai-chatbot | Completed

- Built an AI-powered chatbot for LBS College that answers student queries on admissions, courses, fees, placements, hostel, and facilities.
- Designed full ChatGPT-style UI with user authentication, session management, chat history, and clear-chat functionality.
- Implemented Flask backend routes, FAQ response system, and SQLite database for storing user data and chat history.

BookMyVenue – Venue Booking & Management System | React.js · Redux Toolkit · Tailwind CSS · Vite

github.com/rizwana-haris/BookMyVenue | Open Source · WeCode Community · Team Project | In Progress

- Developed a full-stack venue booking platform enabling users to browse, book venues, and owners to manage venues and earnings.
- Built Login/Signup pages, Venue Details page, Booking UI, and complete Owner Dashboard (My Venues, Add Venue, Bookings, Earnings).
- Implemented form validation, image upload interface, amenities selection, and responsive layouts using Tailwind CSS and React Bootstrap.
- Collaborated using Git feature branches, pull requests, and Discord-based team coordination following phased SDLC methodology.

Damage Claim Verification System | Python · Pandas · Pillow · CSV Rule Engine

github.com/hawwarafiya/damage-claim-verification-system | HackerRank Challenge | Completed

- Developed a rule-based multi-modal damage claim verification pipeline that analyzes claim descriptions, image metadata, and user history.
- Built modules for claim extraction, image quality validation, evidence checking, risk analysis, severity estimation, and CSV output generation.
- Structured project as a professional GitHub portfolio with documentation and evaluation report generation.

Personal Portfolio Website | HTML · CSS · JavaScript | Hosted on GitHub Pages | Completed

github.com/hawwarafiya/hawwa-rafiya-portfolio

- Designed and developed a fully responsive personal portfolio website from scratch.
- Implemented sticky navbar, smooth scrolling, mobile hamburger menu, and scroll-reveal animations.
- Used CSS custom properties, grid layout, and media queries for mobile-first responsive design.

ACHIEVEMENTS & EXTRACURRICULARS

- **Preliminary Winner (x2)** – Young Innovators Programme (YIP 8.0 & 7.0), K-DISC, Kerala Government | Theme: Data Sciences & Future Technologies
- **Volunteer** – IEDC Summit 2025, Asia's Largest Summit for Aspiring Entrepreneurs, Kerala Startup Mission (Dec 2025)
- **Volunteer** – Teranis 2026, Inter-Collegiate Technical Fest, LBS College of Engineering CSE Association
- **Workshop** – Python for Machine Learning, FLOSS Club & IEDC, LBS College of Engineering (Oct 2023)
- **Workshop** – Robotics Workshop, IEDC LBSCEK, LBS College of Engineering (Aug 2024)
- **Workshop** – Get Started with Machine Learning, TERANIS-25, LBS College of Engineering

CERTIFICATIONS

Infosys Springboard (2026):	Artificial Intelligence · Introduction to NLP · Deep Learning for Developers · Computer Vision 101 · Generative AI · Prompt Engineering · Introduction to Data Science
Microsoft (Dec 2025):	Introduction to Machine Learning Concepts
